Solidarity is still a weapon and everyday my heart is  
with the people,  
My comrades and my friends, out on the streets  
If they take these places they take our dreams  
A capitalist crusade against our culture but we won't  
give in

[Chorus:]

Whoa Whoa  
Let's fight together, tear them down  
Whoa Whoa  
Stand united  
Whoa Whoa  
Never forget, never forgive  
Whoa Whoa  
Let's go!

Our arms are chained together  
Face to face with the enemy  
I can feel the fear inside  
But I won't look away, I won't step back  
Noget er veard at kaempe for  
And we still want it all, total freedom!  
So let's stay side by side

I don't fear - prison with you by my side!  
I ain't hopeless - when we're together in the streets!

Let's riot - together - 69 forever!
