After 2 world wars and a unique genocide in history  
There is still this country called germany  
With ignorant people proudly waving flags  
And fascists living the spirit of 33  
While the government deports immigrants  
And the media brainwashes with national propaganda

Let's burn this country down  
Bombs on Berlin!

From day to day swastikas are sprayed on Jewish  
cemeteries  
And refugees are killed in state prisons  
While fascists are still  
Beating up those who're not looking "German" enough  
Their parties are voted into parliament  
And all those fucking companies that were holocaust-  
profiteering  
Are still some of the richest in the world

Stick your national pride up your fucking ass!

There is not a single reason to be proud  
Of being born in the offenders' country  
And I wish myself back to 1945  
When US bombs burned these cities down

Germany - You're not the casualty!
