Jury, jury take her life she ruined mine and loved
through lies
July 19 2005, going no where
Breaking hearts every chance you get I'll stop this,
you'll never quit
Dropped from the tree like your whole family, crazy as
crazy gets
So let it go, and let it roll and bounce, everybody just
bounce and go

Cause I am sick of hesitating, I'm the one that's always
praying
That the best will come and I know it will so hold on

When push come to shove
I know that it's love that leads our lives
And from time to time don't
Waste all your dimes on stupid signs
Cause I will never let you be the one, let you be the one
That lets me take this from your arms
So bet your bottom
Dollar baby tonight you'll get your chance
Cause lady luck is stuck in traffic, and I'll save the one
last dance
With Hollywood around the corner, life between the
dice
I'll sneak away instead of living under these bright
lights

When push come to shove
I know that it's love that leads
Our lives and from time to time
Don't waste all your dimes on stupid signs cause it's
time to go
It's time to roll, leave the chances let them go
I'm lost and out of time to gain back what is mine
(Cause I will never let you be the one let you be the one
that lets me take this from your arms)
