Your ideals  
Your beliefs  
Your whole life  
Prepare to give in  
Welcome to your letdown  
Settle down and sell yourself  
Settle down and sell yourself  
Collapse under pressure is your best bet  
Certain sense of yourself  
What happened  
Calculate frustration as I demonstrate success  
You were never good at evaluation anyway  
Disappointment never felt so good  
Take the only way out and doubt your decision  
Contemplate settling  
Compromise standards  
You are weak  
YOU ARE WEAK  
Judge and jury need not worry  
Your choice is made  
Who needs hope when you have the satisfaction of  
justification  
WHY DON'T YOU JUST GIVE IN?
