Pretty words roll off of your tongue  
Come out of your mouth heard by everyone  
So convincing I believed it  
For so long I still can't figure out  
Why many went last, why many went last  
With the blink of your eye it's all gone away  
... please give me one more stay, I guess that's why I  
feel I'm loosing again...

Miles we've walked the moons we've seen  
Leave it all behind and start a new beginning.  
I won't keep you searching when there's nothing left to  
find

[Chorus:]

'cause I'm not ready for this life... ready for this life  
But I'm ready for tonight, I'm still wondering why  
... days convincing me once we'd never be strong, this  
is goodbye...

Tears fall down like the mourning rain  
A taste of strain does  
Something's getting compromised  
Fall in or fallen the damage is done  
And there's no convincing with these words you've  
spoken

(Repeat Chorus)

Pretty words roll off of your tongue  
Come out of your mouth heard by everyone  
So convincing I believed it for so long  
Still I can't figure out when you were wrong  
... everything you ever said would ever make this right  
or guilty  
Now you say you wonder why you're my best ex-  
friend...

Pretty words roll off of your tongue  
Come out of your mouth heard by everyone  
So convincing I believed it for so long  
Still I can't figure out why

... everything you ever said would ever make this right  
or guilty  
Now you say you wonder why you're my best ex-  
friend...

(Repeat Chorus)

'cause I'm not ready for this life  
But I'm ready for tonight, I'm still wondering why  
... days convincing me once we'd never be strong, this  
is goodbye...  
Days convince...
