You should have known better than to insult me  
That won't happen again...  
Sleep, I'll pretend that you died  
And as you rest may your youth be stripped away from  
you  
Sleep my precious, the darling Rosamond  
May nightmares lay with you... revenge is mine!

There must be something everyone has missed  
The end is drawing near, it's everything I feared  
I'm starting to wonder will this haunt me?  
In spite of doubt I have to break the spell

A lovely day to be tortured by dreams of you

Now as she wakes I'll finally look in her eyes... my  
brilliant prize  
Please know you'll never again be alone for I'm with you

Her sweet lips, oh so fair, to awake is now everything I  
crave  
Time's catching up with me  
I've come this far, there's no turning back  
My sword is drawn, the only choice I have is to fight  
Nothing can stop me now but myself

I will break the spell  
Save me! Help me! Someone!  
Anyone, please, can you hear me?!?  
My eyes! Will I ever see light of day again? Never...

Now as she wakes I'll finally look I her eyes... my  
brilliant prize  
Please know you'll never again be alone for I'm with you

You'll never get away! You'll never get away!  
You'll wish you both had died! He will not break the  
spell!  
A lovely day to be tortured by dreams of you  
My princess, into the thorns I shall dive

Now as she wakes I'll finally look in her eyes... my

brilliant prize  
Please know you'll never again be alone for I'm with you  
My sweet princess finally awake!
