You'll beat me?
Bring it on, bring it on
You're gonna save the day?
Bring it on, bring it on
You Ready?
Bring it on
I'll show you another thing or two

You may think you're clever, but you're not
You better get the coffins out
Trust me kid that's where you're sleeping tonight

There's no guarantee we'll get out alive
Stop your whining, let's get busy
Baby, its time to lock and load
Stop your whining, let's get busy

Welcome to the show
It's a story that you've heard a thousand times
So take a seat and get lost with me
This tale will never stop being told
Welcome to the show
Its a chance to save the world or lose the girl
Let's save the world
Heroes will save the day

You may think you've won, but I promise you it's not
over

This could be our one last chance to finally rise up
So here we stand and here we will fight
None of us shall run from anyone
Storms are gathering

There's no guarentee we'll get out alive
Stop your whining, let's get busy
We have to rise above and fight
We'll be heroes

Welcome to the show
It's a story that you've heard a thousand times

So take a seat and get lost with me
This tale will never stop being told
Welcome to the show
Its a chance to save the world or lose the girl
Let's save the world
Heroes will save the day

This is the part where you are supposed to scream
When you scream, we'll be heroes

Welcome to the show
It's a story that you've heard a thousand times
So take a seat and get lost with me
This tale will never stop being told
Welcome to the show
Its a chance to save the world or lose the girl
Let's save the world
Heroes will always save the day
Let's save the world
Heroes will save the day
Let's save the world
Heroes will always save the day
