Look at the sky as the night descends  
The rain is crashing down, I've hit another dead end  
Just before I let hope slip away  
A shadow is revealed, the devil shows his face

I'm scared to death and have myself to blame, I'm to  
blame  
How did we end up fighting anyway?

You know, I used to search the sky and dream of where  
you were  
I need you by my side, we can end this together  
I know I promised you the world and still I let you down  
I need you by my side and together we'll end this now

Look in my eyes! Am I shaking now?  
I am all you fear, have I made myself clear?

Shut your mouth and finish what you've started  
Boy, you haven't got the slightest idea  
Just who I am and what I do for you  
Don't you see that I am trying to save you?  
Shut your mouth and finish what you've started

I'm scared to death and have myself to blame, no one  
else  
How did we end up fighting anyway?

You know, I used to search the sky and dream of where  
you were  
I need you by my side, we can end this together  
I know I promised you the world and still I let you down  
I need you by my side and together we'll end this now

As the last rays of sunlight fade, one killer chases  
another  
Through the tangled madness of the city  
A flash of steel announces the presence of his quarry  
The stage is set, the night explodes...

You killed her you murderer  
You have stripped me of the one that I love

Annabel, our Annabel  
You have no clue what she's capable of...

I'm scared to death and have myself to blame  
How did we end up fighting anyway?

You know, I used to search the sky and dream of where  
you were  
I need you by my side, we can end this together  
I know I promised you the world and still I let you down  
I need you by my side and together we'll end this now

You'd better look behind you...

Her youthful flesh colour had drained from her much  
like the very blood from her veins on the bedroom she  
lied. Such a foul image for one to withhold. In some  
twisted way it only seemed to enhance her exquisite  
beauty, like a lily on a grave. I have failed. Once again I  
have let her down. My poor sweet Annabel. You trusted  
me, you gave me your love, your soul, now I fall to my  
knees in front of the man that took you from me. I fall  
pathetic, defeated. I will be with you again so soon my  
love, so very soon. Eyes of an angel await me, I'll be  
damned, nothing's going to stop me now.

Sweetheart, darling,  
Turn around, it's me, follow my voice,  
Everything's gonna be okay.  
My love, everything will be fine,  
It's all over now.
