Listen I don't have to say it  
Just listen  
To the words that we just don't say right now  
I really wanna love but I don't know how  
Van't you hear out it's playing  
Like guitars with broken strings  
There's never any harmony  
Don't cry  
We both know the sounds of a long goodbye

The truth is that it  
Never should've gone this far  
And it never would've been this hard I  
I don't want play this song  
But I was never in love

CHORUS:  
Now it's all out of tune  
Between me and you  
Can't you hear the music  
I'll be leaving soon  
Cos it's all out of tune  
Can't you hear the lyrics  
The words and melodies  
They're sharp and cut to deep  
The sound is piercing

And the song keep playing  
Your heart keeps breaking  
And I can't take it  
The song's still playing  
But we're all out of tune

I'll say it cause it painful to just  
Replay this  
I don't wanna break your heart no more

But I can never give you what you're asking for  
See you have never done me wrong  
To leave a good man is hard  
It's harder if we stay here and we  
Just deny

We can't be together and we both know why

The truth is that it  
Never should've gone this far  
And it never would've been this hard I  
I don't want play this song  
But I was never in love

[CHORUS]

And the song keep playing  
Your heart keeps breaking  
And I can't take it  
The song's still playing  
But we're all out of tune

See I don't really wanna sing this part  
But all I wanna do is make it stop  
But the song plays on  
The song plays on and on and on and on...

[CHORUS]

And the song keep playing  
Your heart keeps breaking  
And I can't take it  
The song's still playing  
But we're all out of tune
