I'm gonna so numb
Trying to get you some cruising at a crumb
You know what I want even when you don't
I'm a give it to ya anywhere you want, want

One look, don't stare
Give it to me now, yeah, yeah, yeah
You don't give a fuck, I don't really care
Put one in the air

Spin my body round, like a belly go
Round and round and round
Just can't get enough
Get it get it up, turn my body on
You got what I want

Got a problem
You're the antidote
Give it to me now, it's okay
Baby, get it up, turn my body on
I got what you need

You're looking at the baddest chick in the field
And don't show love, I don't catch feeling
Shine all day, play all night
I can feel you got just what I feel like

That's what I feel like, feel like
That's what I feel like, feel like
That's how I feel, feel like
Just what I feel, like the baddest chick in is right here

Come here, boy, crash into my bumper
What you do, boy, move your body closer
Oh, oh, oh, give me that, that, that
Till my knees get weak and your body drops sweat

Yeah, ain't play no games
Reap your whip, boy, go insane
Go, go stupid, loco, whatever
You already know it's forever

Spin my body round, like a belly go
Round and round and round
Just can't get enough
Get it get it up, turn my body on
You got what I want

Got a problem
You're the antidote
Give it to me now, it's okay
Baby, get it up, turn my body on
I got what you need

You're looking at the baddest chick in the field
And don't show love, I don't catch feeling
Shine all day, play all night
I can feel you got just what I feel like

That's what I feel like, feel like
That's what I feel like, feel like
That's how I feel, feel like
Just what I feel, like the baddest chick in is right here

Baddest chick is, no, I was never the richest
But did I streaky the business
That you can call me the figures
I'm twenty dreams and the willies
Don't want to tell me the feeling
You're looking at the baddest chick on the scene

You're looking at the baddest chick in the field
And don't show love, I don't catch feeling
Shine all day, play all night
I can feel you got just what I feel like

That's what I feel like, feel like
That's what I feel like, feel like
That's how I feel, feel like
Just what I feel, like the baddest chick in is right here
