Oh, yeah, ooh, yeah, yeah, ay, hey

I'm finally up and I'm strong on my feet  
Been through the war, now nothing rocks me easily  
Don't always want what I get but I get what I want, I  
want, hey

You're suddenly right beside me, up in my face  
Must be from London or Milan 'cause I like your taste  
Maybe I am just a girl that you need, you need, baby

Usually I'm never short of the words  
Every drink I have just makes it worse  
My mouth only mumbles, my confidence stumbles  
I crumble inside and I just st-st-stumble

I just broken free  
Got the whole world on my feet  
I be crazy, I be crazy  
If I let you take this from me

I'm a superwoman now  
Got my super powers out  
I be crazy, I be crazy  
Now that I'm cool with me  
Now that I'm cool with me  
Now that I'm cool with me  
Now that I'm cool with me

Somebody hold me back before I make a mistake  
There's only so many times a heart can break  
Damn patient, calls me back for more, for more

Maybe another time, a place I'll let you in  
Just trying to be happy waking up in my own skin  
Stay sober, girl, it really ain't working, ain't working

You're the sweetest, a cure and a curse  
Saying no, no, no, just makes it worse  
My mouth only mumbles, my confidence stumbles  
I crumble inside and I just st-st-stumble

I just broken free  
Got the whole world on my feet  
I be crazy, I be crazy  
If I let you take this from me

I'm a superwoman now  
Got my super powers out  
I be crazy, I be crazy  
Now that I'm cool with me

Yeah, I can't let you stay and I can't let you go  
Can't help getting close but I might lose control  
A taste of you, a taste of me will chain react like  
chemistry  
Better stop this now before it's too late

The more I try to run from you  
The more I get myself confused  
To save my heart from getting bruised  
But there is nothing, nothing, I'd rather do

I just broken free  
Got the whole world on my feet  
I be crazy, I be crazy  
If I let you take this from me

I'm a superwoman now  
Got my super powers out  
I be crazy, I be crazy  
Now that I'm cool with me  
Now that I'm cool with me  
Now that I'm cool with me  
Now that I'm cool with me  
Now that I'm cool with me
