We party till the sun lights up the sky
Ypu're right here for me, I'm right here for
you let's go (Roll Deep)
I'm taking my time, I'm taking it slow (I know)

(Take Control, Alesha)
We got one more chance at it, so let's go
to dance with it
(Cause you know it's now or never)
Imma take control of it

I wanna take control of your mind and your
body and soul
Nightlife calls like hurry and go
Make plans and I can't believe we're still here
They can see love flying round in the air
I'm yours (yours), babe and you're mine
Told ya, we ain't wasting our time
We got that fresh love, thing going on
Some say that it's right some say that it's
wrong

My life's unreal but it ain't a dream
This girl's got a body like you won't believe
I made the 1st move now she don't wanna leave
I think she likes me, I'll take the lead
One thing leads to the next it starts off
With a little kiss on the neck
Then I wake up with an arm over my chest
Thinking about last night there's never a regret

Close the door, what you waiting for
I can't believe you're here with me
Close your eyes, it's just you and I
Get ready to fly

We can party all night till the sun lights up the sky
(We party till the sun lights up the sky)
And when the stars come out I'll be right here by your
side
(When the stars come out I'll be right here by your side)
So take control (You're right here for me I'm

right here for you, let's go)
Don't let it go (I'm taking my time, I'm taking
it slow, I know)
Take control (We got one more chance at it
so let's go to the dance with it
'Cause you know it's now or never (Imma
take control of it)

I grab you by the hands and roll out
Let's go now, I wanna get to a place where
it goes down
Where the party starts we don't hold out
Anything goes. wanna take you there, that's
all J knows
Under covers, plain clothes, yeah we like
that
And then we sail out, so let's bail out
There ain't much to say, but what you saying now?

You know me babe, I'm easy
Cuddle in front of the TV
Party to your favourite CD
Grab a few bottles if need be

(Ching)
Please don't lead me on
'Cause I'm feeling you, do you read me
I've grown quite fond of you,
Just gimme a call if you need me

Close the door, what you waiting for
I can't believe you're here with me
Close your eyes, it's just you and I
Get ready to fly

We can party all night till the sun lights up the sky

I can take you anywhere
Yeah I mean everywhere

Here, there, this, that
Tonight's special I want you to set pace
Name a time, name a place
OK how about here right now
Tonight's nice I'll take you out on the town
Here's my wallet, hold that
Let's spend the night, don't hold back

You, you coulda been anywhere in the world
But you're here with me
Now there ain't no limits, high life livin'
Now we're out we're both in it
Stay by my side
Tonight's the night that I prove that you don't
need no wings to fly
Sun's in the sky, two stars on the ground
That's me and you, so we can't stop now (wow)

Close the door, what you waiting for
I can't believe you're here with me
Close your eyes, it's just you and I
Get ready to fly

We can party all night till the sun lights up the sky
