City gents on the 8:15 am  
Waiting there in line for real love  
Everyday I'm afraid if I start to dream again  
I'll become just another broken heart

And I like kissing you, dear  
But for now, better listen to my fears, yeah  
Every night I'm wishing you're here  
But for now gonna listen to my tears

Let the light that you're needing light up  
When your heart could break  
Let it be your fire, yeah, yeah

Let the light that you're needing light up  
When you can't escape  
Let it lead you higher, yeah, yeah

City lights flicker out at 5 am  
Lying here all alone with a beating heart  
And the voice in my head goes around and around  
again  
And I know I should stop way before I start

And I like kissing you, dear  
But for now, better listen to my fears, yeah  
Every night I'm wishing you're here  
But for now gonna listen to my tears

Let the light that you're needing light up  
When your heart could break  
Let it be your fire, yeah, yeah

Let the light that you're needing light up  
When you can't escape  
Let it lead you higher, yeah, yeah

And always calling my name  
And how you got me to stay, stay

And I'll love every last minute of it  
I know that I'll love every last minute of it, ooh, woah

I'll love every last minute of it, ooh, yeah  
I'll love every last minute of it

Let the light that you're needing light up  
When your heart could break  
Let it be your fire, yeah, yeah

Let the light that you're needing light up  
When you can't escape  
Let it lead you higher, yeah, yeah

Let the light that you're needing light up  
When your heart could break  
Let it be your fire, yeah, yeah

Let the light that you're needing light up  
When you can't escape  
Let it lead you higher, yeah, yeah
