Stepped into the club, i knew something was wrong
Everybody was stading by the wall
So i stepped up to the dj and told him
You gotta put some shit on that will make them bounce
So he put on my track and then he let it roll
Everybody was bouncing, outta control, but it
Doesnt't't't really matter
Cause everybody came here just to have a good time
Ladies, ladies, throw your hands up
Fellas, fellas, throw your hands up
I just wanna make you move
I just wanna make you bounce
So we got the crowd bouncing and moving now
There's no way in hell you gonna stop us now
We can work it, girl, whatever you wanna do
You can shake it all night if you want too
I just wanna see you move (see you move)
I just wanna see you bounce
Girl, you, know, you better get one down
Ladies, ladies, throw your hands up
Fellas, fellas, throw your hands up
I just wanna make you move
I just wanna make you bounce
(rap)
Ladies, ladies, throw your hands up
Fellas, fellas, throw your hands up
I just wanna make you move
I just wanna make you bounce
