Oh, mama please don't cry
We have all seen enough tears
My sister i love your smile
As long as were together we got nothing to fear
All of my loved ones, all of my thug ones
I know you feel me now
All of me riders, all of my fighters
Well find a way somehow (as long as we)
Keep in mind the sun is shining
Keep in mind every end is a new beginning (i said)
Keep in mind never to give up
Keep in mind just keep believing
Oh, please take this from me
This is all about feeling good
And it's just as simple as love (oh yes it is, just
remember that)
Everything comes back to you (just show love)

All of my homies, all of my ladies
I know you feel me now
All of my brothers, all of my sisters
Well find a way somehow (as long as we)
Keep in mind the sun is shining
Keep in mind every end is a new beginning
Keep in mind never to give up
Keep in mind just keep believing
Keep in mind that you're unique
Keep in mind if you believe it, then you can do it (i said)
Keep in mind that love don't cost a thing (and)
Keep in mind put a little love in everything
... i got love for my people, love for my family
Love, love it's all love...
... give me that love...
