Once upon a time I thought I knew
What was what and who was who
What to say and what to do for you

Once upon a time I thought I'd see
How it is and how it's meant to be
But now it's all just fairy tales for me
But there's a you and me so

CHORUS

Someday I'll find a way
To take us back to yesterday
Cuz I've told myself I'm wrong
But I've kept this lie for way too long
And
Someway I'll find to say
I'll give away my everyday
Someday

But not today

I wish for more but I get only one
My only chance with you has come and gone
We've reached a end and we've only just begun

It's only now that I can finally show
And only now that you can finally know
But soon I know it'll seem like long ago
But it's what I owe so

CHORUS

How does it feel to be
My night's brightest light?
One day I'll make you see
You brought the colors into my life

CHORUS
