There's nobody that I've met quite like you  
And I doubt that I ever will  
You're exactly what I describe every time someone  
asks me about my dream girl  
When you're with me I don't ever feel lonely  
And I've never felt more at home  
And I swear as long as I'm still here you won't have to  
be alone

I don't need anyone else...

If we only have one chance at life I'm glad I spend my  
time with you  
If this moment is the only time we have what would I  
rather do?

There's nobody that I've met quite like you  
No one's ever treated me this way  
Every time I fuck up you could ignore me  
But you forgive me the very same day  
You're the farthest thing away from heartless  
But some people don't understand  
And I'm here for you regardless  
Anywhere in the world you land

I don't need anyone else...

If we only have one chance at life I'm glad I spend my  
time with you  
If this moment is the only time we have what would I  
rather do?

I hold every memory I make with you in my mind  
I could lose you so fast  
I hold every breath I take with you for some time  
'Cause each could be the last

If we only have one chance at life I'm glad I spend my  
time with you  
If this moment is the only time we have what would I  
rather do?
