Emotions running high here
You're gonna find you're
Running out of chances
Cracking it together
It's now or never
Can't you see the damage

You're somewhere
Waiting on your own spotlight
You're starving
Holding out alone tonight
Time won't change you
It just gets you by
Make up your pretty mind

Chorus:
Tell me what you want
Don't make me, don't make me
Wait around all night to watch me
Break my heart around you
Break my heart around you

Tell me what you want
I'm waiting, I'm waiting
If you don't want to stay
Then I don't wanna
Break my heart around, heart around you
Break my heart around you

Feeling suffocated
Disassociated
Parading in the glory
And when the party's over
The glitter and the glamor
Tell a different story

You're somewhere
Waiting on your own spotlight
You're starving
Holding out alone tonight
Luck won't save you
It just gets you high

Make up your dirty mind

Chorus:

Tell me what you want
Don't make me, don't make me
Wait around all night to watch me
Break my heart around you
Break my heart around you

Tell me what you want
I'm waiting, I'm waiting
If you don't want to stay
Then I don't wanna
Break my heart around, heart around you
Break my heart

I was there for you
You are not alone
Do you want to stay, or let go

Tell me what you want
I'm waiting
If you don't want to stay
Then I don't wanna
Break my heart around you
Break my heart around you (x2)

Tell me what you want
Don't make me, don't make me
Wait around all night to watch me
Break my heart around you (break my heart)
Break my heart around you (break my heart)

Tell me what you want
I'm waiting, I'm waiting
If you don't want to stay
Then I don't wanna
Break my heart around, heart around you
Break my heart
Break my heart around
My heart around you
