If you're haunted by the picture show
And can't sleep through the flicker
Don't apologize for what you see
You and I, both understand that
We were never meant to be

Now the morning's never last
And you can't have them back
You're drifting way too fast
Try and get it back on track

You and I, both understand
What comes around may also leave
We were never meant to be

Oh no, I don't want this to end
Don't start, we could start it all again
I know we were never meant to be

Be alone forever on your throne
It can never give in to what you were once before
But you and I, both understand
What comes around may also leave
We were never meant to be

Oh no, I don't want this to end
Don't start, we could start it all again
I know we were never meant to be
You were never meant to be

Too long to understand the chance
Too late to wake up, every drink of glass
Do you know it kills me every time you bleed
And we were never meant to be

I thought these memories
Were the best that we had
Until the moment
Where you never came back
We were never meant to be

Oh no, I don't want this to end

Don't start we could start it all again
I know we were never meant to be
We were never meant to be

We were never meant to be
We were never meant to be
We were never meant to be

We were never meant to be
We were never meant to be
We were never meant to be
