Love tore me apart, it broke my to my knees
Some days I cried so hard, till I could hardly breathe
It felt like my heart would stop, with ever tear I dropped
But I couldn't have been more wrong, cause the rhythm
carries on
Love tore me apart, but my heart, my heart, my heart,
my heart
Is beating still, beating, still, beating still
Bringing me back to life
Beating still, beating still, beating still
Bringing me back to life
Love tore me apart, but it also showed the way
Cause it rose up from the...like a phoenix through the
flames
My heat is the bass tonight, and my beat never felt so
right
And now ...dancing towards the... and the rhythm
carries on
Love tore me apart, but my heart, my heart, my heart,
my heart
Is beating still, beating, still, beating still
Bringing me back to life
Beating still, beating still, beating still
Bringing me back to life
I got lost on my side, can feel the love here tonight
I got lost on my side, can feel the love here tonight
Love tore me apart, so love tore me apart
Beating still, beating still, beating still
Bringing me back to life
Beating still, beating still, beating still
Bringing me back to life.
