I look at your beautiful face
But I don't know what lies underneath
And the words seem to fly into space
And they're driving a wedge in between
I'm scared of the risk that I'm taking
But you're pushing me close to the edge
Feel the laws of gravity breaking
As I take that leap of faith

Chorus:

Don't look down
Just stand up
I've decided who I'm gonna be
I lie to myself
I've given enough
But I can't hide behind my fear of flying
(I need you) My fear of flying
(I need you) I got a fear of flying
(I need you) My fear of flying

What happened to your adoration?
Take me to where we began
Give me a little more patience
Cause this time I'll understand
Is it too late to bathe in your lie?
Cause I want to come out of the shade
I'm ready to make it alright
And forget the mistakes that were made

Chorus*

A piece of me
You get for free
But it's worthless
If we don't have honesty
If we don't have honesty
I know it's hard but if you care
Then we're weightless
And we're floating in the air
And we're floating in the air

Chorus 2x*
