Whenever you want me baby
I'll bring you the sun
Whenever you need me darling
I'll shine in the dark

If you only could understand
What else do you want me to do
If only you could see the reasons why
I wanted to come back to you

How many times
Do I have to cry all along the way
How many lies
Do I have to bear to be yours again

Whenever you want me baby
I'll bring you the sun
Whenever you need me darling
I'll shine in the dark

If only we could turn the pages
Forget how we've wasted our time
If only we could say the things we've never said
There's no higher mountain to climb

How many times
Do I have to lose all along the way
How many things
Do I have to learn then to lose again

Whenever you want me baby
(if only I could find the answer)

You're always the reasons to be there
