(Alright)

This is from our hearts
Sincerity over simple chords
We made some mistakes
We made some mistakes
But it's a long time coming when you're giving it
everything

(Alright)

This is from our hearts
Sincerity over simple chords
We made some mistakes
We made some mistakes
But it's a long time coming when you're giving it
everything

Alright, this is from our hearts
And it's been right from the start
There's fire in my guts you just can't put out
Alright, this is from our hearts (from our hearts)
And there is going to be a part of this crowd
Who don't understand, oh

And i feel the same
I won't ever change
Not a jaded hair upon my head

Are you pretending?
(that you care?)
Are you even listening?
Are you pretending?
(that you understand?)
Are you even?

Suits to the left
Squares to the right
Cause' my heart - my heart is full
And we ride to fight

Suits to the left
Squares to the right

Cause' my heart - my heart is full
And we ride to fight

Suits to the left
Squares to the right
Cause' my heart - my heart is full
And we ride to fight

Suits to the left
Squares to the right
Cause' my heart - my heart is full
And we ride to fight

Are you pretending?
(that you care?)
Are you even listening?
Are you pretending?
(that you understand?)
Are you even?

Are you, are you?

Are you even listening?
Are you pretending?
That your heart's in the right place

Are you pretending?
Are you even listening?
Are you pretending?
Are you even...

There's no need to waste my time.
Spending your life, jumping from sinking ship to
sinking ship.
Because i think i would rather drown
I know i'd rather drown.

And i feel the same,
I won't ever change,
Not a jaded hair upon my head.
