Let's go!!!!

It's never too late to be early or to try and maintain  
Some scrap of integrity and certaintyâ€¦I guess.

(my fingers are blistered and bleeding there's no  
longer discomfort you brought me)

But I wont apologize and 1977 was a long time ago. I  
don't care

I don't care

How things were I wont apologize. i wont apologize.

Fuck you.

The Alamo has been penetrated and there is little hope  
for the white man so hope on your rainbow and ride it

(my fingers are blistered and bleeding there's no  
longer discomfort you brought me)

Into oblivion.

For all I care you can be early or late, what ever.[x2]
