Maybe I've been too lonely for too long
Careful, I have been craving someone like you
Someone just like you

You give me such a rush
Just keep dancing with me the way you do
You'll drive me insane
You're driving me insane

You might like it, if you'd only try
We could do this or we could talk all night
How could you be so blind you can't see
Don't be nervous, you can come with me
Come with me, come with me, you could come with me

I'm always in control of my feelings
Nobody ever turned me around this way
What do you say?

I could love you like I love your eyes
You don't know me, I don't compromise
Don't resist it, you can come with me
And you might like it, you might like to see
Come with me, come with me, you could come with me

I see what's burning behind your eyes
I could take you somewhere nice if you'd let me
If you'd let me, if you'd let me

Let's go somewhere for a little while
Too much talking, this is not my style
I have seen you in this club before
Where's your girlfriend? That's her on the floor

No please don't take this any way but right
I'm addicted, you're my drug tonight
We could do this, let yourself feel free
Don't go back now, you could come with me
Come with me, yeah, come with me, you could come
with me

You can come with me

You can come with
