I spend my money then I try in vain  
Can't seem to understand you, girl  
All at once, here it comes again  
This time, I've got to pay the price  
There we are and the people come and go  
No matter where we stand  
Turn around, I've got the right to know  
What have we done  
What to do? What to do?  
Do about love  
What to do? What to do?  
Do about nothing  
I paid the piper, nothing in return  
Be careful when you roll the dice  
Never judge it, before you read the book  
Believe me when I sing this song  
There we are and the people come and go  
No matter where we stand  
Turn around, I've got the right to know  
What have we done  
What to do? What to do?

Do about love

What to do? What to do?

Do about nothing, yeah

What should I say

I'll please you and I must

Make up your mind

Say you will, say you won't, say you will

What to do? What to do?

Do about love

What to do? What to do?

Do about nothing

What to do? What to do?

Do about love

What to do? What to do?

Do about nothing, yeah

What to do? What to do?

What to do? Yeah

What to do? What to do?

Do about love

What to do? What to do?
