We've been friends for quite some time

And now I see you differently

There's a cloudy picture that's becoming clearer to me

I hesitate to tell you how I feel cuz I Don't want you to be afraid

But I don't want to make a mistake being too shy to say

I think I love you and I don't ever wanna let you go

I think I need you in ways that I am unable to show

I think I love you and I want everybody that we know to know

How you make me feel just how you make me feel

You make it so frustrating cuz you're so spoiled like me

Then it drives me insane when we agree to disagree

And when my words don't come together to make much sense

You recite the perfect sentence to put my mind at ease you see

I think I love you and I don't ever wanna let you go

I think I need you in ways that I am unable to show

I think I love you and I want everybody that we know to know

How you make me feel just how you make me feel

Time and time again I'm trying to convince

To myself that what I'm feeling it does make sense to me

Sometimes it's difficult for meâ€¦.difficulty

Like when days are here to stay and you bringing me my smile

But tomorrow comes around and you letting me down

It confusing â€¦.you confuse me baby you driving me crazy

I think I love you and I don't ever wanna let you go

I think I need you in ways that I am unable to show

I think I love you and I want everybody that we know to

know

How you make me feel just how you make me feel

I thinkâ€¦I think I love you

I think â€¦i think I need you

This is how you make me feel
