[Chorus: repeat 2X]

Now is you bout it or just talking if so then you'se a  
bitch

Got to get up & make it happen if not then you'se a  
bitch

Complaining & whining dirty you sounding like a bitch  
If it look like, talk like it must be a bitch

[Verse 1]

I came with Phil niggas with war wounds, true alivers  
I love Destiny but they ain't got nothin' on this survivin'  
Fuck Christmas, fuck wishin'  
Listen roaches just missin'  
Hatin' school cause they dissin'  
Sleeping in the kitchen  
You need at least one parent on drugs to fill half our  
struggle  
This ain't pain it's muscle  
Stand up, Mase ain't a hustle  
Lil' nigga I was gettin' wet  
Young threat  
Too much of a cat  
For a McDonald headset  
Mama havin' breakdowns, Keisha got cancer  
Poor, no insurance, I'm thinking crime is the answer  
I guess Dancer, Donald & Prancer & the Blizzard  
Don't visit the place where life ain't so exquisite  
Is it hardly working cause it ain't working hard  
We hardly had a car  
Now I got a car & a harley  
Reflecting on this smoking, (Singing: I shot the Sheriff)  
bumpin' Bob Marley  
Thinking damn life a bitch but I'm glad I ain't one

[Chorus]

[Verse 2]

Stand up on your own don't live off another nigga  
Don't be like D-2 Dirty & straight eat off another nigga  
Gonna ahead & do your thing  
Without disrespecting the game

You a bitch & you know it  
Pull up your skirt & let me show it  
Spoiled brat bum  
Took balls & bats from  
Your type  
Matter of fact you a bitch I took your bike  
Complaining & whining  
I went from the buildings to shining  
Fifty city tours  
Velour  
Minks & blue diamonds  
Twenty-two's on wild bodies  
Errnight a party  
Kickin' it with bitches wit' lil' waists & wide bodies  
I know niggas with no future that still went to college  
Now they lawyers & doctors  
Mixing it in with street knowledge  
Used to polish  
Adias back when rap was only in Hollis  
Stacey Adams & golf clubs your crew I demolish  
Out the Impala  
Sun roof yellin' ain't nobody hotter  
You a bitch I got to explode you  
Dirty, I got her

[Chorus]
