Visit "[Dive It Home](#)" on MotoLyrics.com

She give it to number one to drive it home
She give it to number one to drive it home
She give it to number one
Baby let's have some fun
And put you sweet lips close to mine
And drive it home

She give it to number two to drive it home
She give it to number two to drive it home
She give it to number two
And baby just me and you
And put you sweet lips close to mine
And drive it home

She give it to number three to drive it home whoa whoa
She give it to number three to drive it home
She give it to number three
And baby just me and you
And put you sweet lips close to mine
And drive it home

She give it, she give it, she give it, she give it, she give
it, to number
Four to drive it home whoa whoa
She give it to number four to drive it home
She give it to number four
And baby lets have some more
And put you sweet lips close to mine
And drive it home

And put you sweet lips close to mine
And put you sweet lips close to mine
