Came in yesterday What I saw And I don't do business
In that way Don't mind You can stay If you want Cos
when I see you ache It makes me pleased I still see
blood In his eyes And when he falls He falls so deep so
deep Makes me high Makes me high I still see blood In
his face Knock you out And fall so deep so deep Don't
know what What it is In your eyes... In your eyes Came
back yesterday What I found.. And I don't do Business
in that way Don't mind what you say You can laugh But
when I see you ache It makes me wet I still see blood In
his eyes And when he falls He falls so deep so deep
Makes me high Makes me high I still see blood In his
face Knock you out And fall so deep so deep Don't
know what What it is In your eyes... In your eyes
