"Joyous"

When my heart is bleeding And my head keeps
spinning So I take a hit And here I come Love the way I
feel When my head's exploding I know everything I
need to know How I love to watch your spirit Broke nose
bleeding Now it is a time for me to go Blood and sweat
and tears Will never stop so I'm leaving Reeling from
the kicks and the blows Be happy Be joyous Be grateful
Be free Whatever you want to Just do it the fuck away
from me Be happy Be joyous Be grateful Be free
Whatever you want to Just do it the fuck away from me
