Girl, we sold our souls and love was the price
And we both went broke
Now look where we are
Our relationship was televised
And everyone saw why we don't belong

The fame, the drama, far more than we made love
I let the blame, the problems affect those around us
We didn't prepare for this part
And we just became stars too fast

So now no more flashing lights
No more butterflies
Girl, our 15 minutes of fame is over
15 minutes of fame is over
No more promises, no trips overseas
Girl, our 15 minutes of fame is over
15 minutes of fame is over
Girl, our 15 minutes of fame is over

Love became a thing of the past
We fell back in lust
All we did was fuck
And scripted lies were all we used
Boy, I love you, girl, I love you, too

Fame, drama, far more than we made love
I let the blame, the problems affect those around us
We didn't prepare for this part
And we just became stars too fast

So now no more flashing lights
No more butterflies
Girl, our 15 minutes of fame is over
15 minutes of fame is over
No more promises, no trips overseas
Girl, our 15 minutes of fame is over
15 minutes of fame is over

Now sit back and watch these critters roll
When the lights go down and the curtains close

It's over now, it's over now
Time is up, gotta let it go

No more flashing lights
No more butterflies
Girl, our 15 minutes of fame is over
15 minutes of fame is over
No more promises, no trips overseas
Girl, our 15 minutes of fame is over
15 minutes of fame is over

No more flashing lights
No more butterflies
Girl, our 15 minutes of fame is over
15 minutes of fame is over
No more promises, no trips overseas
Girl, our 15 minutes of fame is over
15 minutes of fame is over
