I wonder if the blood amount to something
Isn't even justified to have the right to say nothing
They got us feeling like we nothing but we standing tall
Up against the force, they had plans from way back to
see us fall
They got this picture painted of us and it's full of terror
Talking peace is cheap, when back home isn't getting
better
The more money the more war murders fly
More Bush telling lies, the more kids that die
My people crying and crying and isn't nobody showing
love
But up above there's God to put a price on the blood
Why they... bombing them buildings and killing civilians
What about the kids and the women that had to die for
no reason
What would u do if you knew, your kids out on the block
He laying dead blood soaked with hand full of rocks
Military shots got him, and he tried to get up
He only 10 facing a tank all he had was his pride

(Chorus) 2x

Because imm'a stand, never will I fall
How many people gotta die for y'all to take charge
They had a plan, a plan all along
I won't swallow my pride I'm too strong

I don't really understand
How they be killing us scamming and brain washing the
people
But don't nobody care
They got a scheme of separating the mid east
Trying to dirty up a religion that defines peace
Want to divide us and bush you're a liar
Isn't nothing but a murderer, new world order
I speak what I feel and I spit what I know
And it don't matter how you keeping the truth down
below
I'ma raise it up for Lebanon, Iraq, and Palestine
Any soldier that died any mother that cried
Any land they occupied making it hard to survive

9/11s a lie and if you never realized
That it was planned using the bait of killing all of them
lives
Then u blind with the bias they using causing the
ignorance
Not a coincidence how we losing the innocent

(Chorus) 2x

See it's a damn shame
With the so called leaders
Turning their backs on their own kind calling for
freedom
Turning their backs on their own people that had no
reason to die last cries trying to survive but no1 sees
them...
Now where's the justice at
It's time to break the silence
Mr. Mubarak you're a product of Satan and Zion
Criminal mind with a vision to see us die
But a puppet is a coward even after they die
Time for people to rise
Never swallow your pride
Speak up to the system full of destruction and lies
I'ma fight because for the truth I'm a fighter never will I
bow down to anything but the greater
I'ma stand I'ma shout with a loud tone
Stand tall won't fall because I'm too strong
For my people I'ma fight till I'm done gone
For my people I'ma fight till I'm dead gone let me hear
you all go

Chorus

Yea, rest in peace to everybody that had to be a victim
of this unjustified act... or should I say acts...
It's time for us as a people to stand up, stand up for the
truth...
It don't matter what religion u represent, at the end of
the day we got to stand as one...

And if u don't, might as well line up with the rest of the
people that turned their backs on us.
We're all human, and you know what.
The world is watching.

God is watching
