When the heat of the light
Melts into the night time
And when the world will moonshine...

Just in New York and Rome
We'll keep our love at last
And we'll forget the bad past...

Do you wanna to dance
With me Cherie?
It's more than a dream
Here in Paris...

Stay with me Cherie
Love me C'est la vie
Girl don't waste your time
But dive in the blue...

Stay with me tonight
Dolce mi amor
Till the morning light...

Oh, baby
Tell me baby what's all about?
I can't live without you
And flights that we are making...

Three hours London - Madrid
With call that's on Nizza
Oh, California old blues...

Do you wanna to sing
With me this night?
It's more than a dream
Now is the live...
