See her fight my lovin'  
As she slowly slips away  
Taking what she's giving  
Is the story every day

Was no trouble trying to prove it  
It was her I was a losin'

And I wonder who's loving her now  
Wonder who's loving her now  
Who's gonna stand in my place  
And make my same mistakes?

First it was my thinkin'  
That she said upset her so  
Next it was my money  
I didn't have a dime to show

Yes I know I took a bruisin'  
Here's the tears I cried to prove it

And I wonder who's loving her now  
Yes I wonder who's loving her now  
Who'll fall flat on his knees?  
Who's gonna wake up too late?

Was no trouble trying to prove it  
It was her I was a losin'  
And I wonder who's loving her now  
Yes I wonder who's loving her now  
Wonder who's loving her now  
(I gottaMy God) I wonder who's loving her now  
(Please tell me) I wonder who's loving her now  
I wonder who's loving her now
