You got a taste on your face
You got some scare in your hair
You got some rock in your walk
And some hips in your slippers

Stop running, stop hiding
Just wanna get in touch with your feminine side

You look so cool, you look so sweet
Come on, baby, come on over, baby
It's your world but it's my street
Come on, baby, come on over, baby

You got stars on your scars
You got surprise in your eyes
You put some bite in the night
You got some sin on your skin

Stop running, stop hiding
Just wanna get in touch with your feminine side

You look so cool, you look so sweet
Come on, baby, come on over, baby
It's your world but it's my street
Come on, baby, come on over, baby

Stop running, stop hiding
Just wanna get in touch with your feminine touch
With your feminine side

You look so cool, you look so sweet
Come on, baby, come on over, baby, inside
It's your world but it's my street
Come on, baby, come on over, baby, inside

You look so cool, you look so sweet
Come on, baby, come on over, baby, inside
It's your world but it's my street
Come on, baby, come on over, baby, inside
