"Lab Monkey"

Visit "[Lab Monkey](#)" on MotoLyrics.com

Anybody out there?
Anyone at all?
Can you finally hear this deepened
Scratching through the wall?

Came far to find me...
Down the rabbit hole...
Watch me smiling back while
Choking on the skull

I know...
Wont forget...
Limped away
From the wreck

Is the monkey breathing?
Lookin' kinda sick...
Got a witty comment for me?
Have yourself a kick!

Does it make you feel good?
Are you full and strong?
Gonna end up in this cage and
I hope you stay as long

I know...
Wont forget...
Limped away
From the wreck

We'll never know what this is
Till we take a look inside
I'm sure we'll find what came before

And that is:

We'll never know what this is
Till we take a look inside
I'm sure we'll find what came before

Had enough - I don't need you to stick my hyde

Had enough - no more tears for me left to cry
Had enough - I don't need you to blind my eyes
Had enough - no more tears for me left to cry

I know
Wont forget
Limped away
From the wreck

We'll never know what this is
Till we take a look inside
I'm sure we'll find - what came before

And that is:

We'll never know what this is
Till we take a look inside
I'm sure we'll find what came before

Had enough - I don't need you to stick my hyde
Had enough - no more tears for me left to cry
Had enough - I don't need you to blind my eyes
Had enough - no more tears for me left to cry
