here footsteps creek the floor
the shadows give away
someone outside the door
wont let me in

life damaged gears to grind
a rundown broke machine
that steals your peace of mind
before you know its gone

lay down
lay

silence burning
hold your tongue
keep us separate
so they'll know

hiding in the darkness under
boiling to the surface don't go far

looking in view to long on the outside
desperate plans make sense in a low life
hey
(repeat)

these things i hate in you
are so reflect it seems
distortion laced with spikes
digs you outta me

lay down
lay

hiding in the darkness under
boiling to the surface don't go far
crawling on your skin discomfort
makes you break and run, stumble, fall

looking in view to long on the outside
desperate plans make sense in a low life
hey

(repeat)

its why you never tell me (whatevers on your mind)
its why you never tell me (whatevers on your mind)
its why you never tell me (whatevers on your mind)
its why you never tell me (whatevers on your mind)

looking in view to knock on the outside
desperate plans make sense in a low life
hey
(repeat)

its why you never tell me (whatevers on your mind)
