Danger grows in the mind  
It's so hard when your life's one big lie  
Like a phantom of mine  
I'm not your baby

Little creature  
I'm gonna teach ya a trick or two  
I learnt from you  
Little soldier I'm much older  
I'm watching you hold her

Baby's fine  
Inside  
It's just you don't know  
You don't know  
Baby's fine  
Inside  
It's just it don't show (it don't show)  
It don't show (it don't show)

See my face in your head  
I'm so sure I showed you  
How to cry  
But all I see is red  
Well I'm not your baby

Little freedom  
Got to give some  
Don't think that I'll be running back  
Little affection give her protection  
Don't mess with her

Baby's fine  
Inside  
It's just you don't know  
You don't know  
Baby's fine  
Inside  
It's just it don't show (it don't show)  
It don't show (it don't show)

Do you think of me?  
Oh like I need you to  
Did I follow you?  
Are you strong enough?

Baby's fine  
Inside  
It's just you don't know  
You don't know  
Baby's fine,  
Inside  
It's just it don't show  
It don't show (it don't show)

Baby's fine  
Inside  
It's just you don't know  
You don't know  
Baby's fine  
Inside  
It's just it don't show  
It don't show (it don't show)

(fading away)

Baby's fine  
Inside  
It's just you don't know  
You don't know  
Baby's fine  
Inside  
It's just it don't show  
It don't show (it don't show)
