I can feel the  
Darkness in the air tonight  
Mysterious moonlight making the sky bright  
Frighning that's what it seems to be - yeah  
The world is falling all around me

Help me because I'm falling  
Help me because I'm calling  
Out to the chosen hearts that knows that God regards  
The people that are lifelong having it hard  
Not knowing which way to go  
Not even knowing just how to start  
As I drop to my knees  
Lift my head to the moonlight  
I can feel it in the air tonight

Chorus:  
There's a danger sign up in the air  
And the danger bird is flying up there  
No heart could tell  
That love will never let you down  
It's in the air tonight  
It's in the air tonight  
It's in the air tonight

The question is: how will we continue  
When will we finally begin to  
Concentrate on what is reaf  
Meditate on what we feel  
Some people are made happy with a meat  
Politician's praise amaze the most of us  
But don't do a damn thing - not for the chosen us  
Left out - forgot about - not even thought about  
If you think I'm talking shit - check da route  
Hard times creeping around ya town  
Waiting to bring you down  
Turning your situation around  
And so I pray with all my might  
'Cause I can feel it in the air tonight

Chorus:

There's a danger sign up in the air  
And the danger bird is flying up there  
No heart can tell  
That love will never let you down  
It's in the air tonight  
It's in the air tonight  
It's in the air tonight

Bridge:

And if you could see what it means to me  
That there is something going wrong  
And if you cool feel there's a heart to heal  
'Cause there is something going wrong  
'Cause there is something going wrong

Chorus:

There's a danger sign up in the air  
And the danger bird is flying up there  
No heart can tell  
That love will never let you down  
It's in the air tonight  
It's in the air tonight  
It's in the air tonight
