Danger grows in the mind
It's so hard when your life's one big lie
Like a phantom of mine
I'm not your baby

Little creature
I'm gonna teach ya a trick or two
I learnt from you
Little soldier I'm much older
I'm watching you hold her

Baby's fine
Inside
It's just you don't know
You don't know
Baby's fine
Inside
It's just it don't show (it don't show)
It don't show (it don't show)

See my face in your head
I'm so sure I showed you
How to cry
But all I see is red
Well I'm not your baby

Little freedom
Got to give some
Don't think that I'll be running back
Little affection give her protection
Don't mess with her

Baby's fine
Inside
It's just you don't know
You don't know
Baby's fine
Inside
It's just it don't show (it don't show)
It don't show (it don't show)

Do you think of me?
Oh like I need you to
Did I follow you?
Are you strong enough?

Baby's fine
Inside
It's just you don't know
You don't know
Baby's fine,
Inside
It's just it don't show
It don't show (it don't show)

Baby's fine
Inside
It's just you don't know
You don't know
Baby's fine
Inside
It's just it don't show
It don't show (it don't show)

(fading away)

Baby's fine
Inside
It's just you don't know
You don't know
Baby's fine
Inside
It's just it don't show
It don't show (it don't show)
