They are called gods, saviours - the superior race
They are the inhuman monsters bringing mankind
misery
They are the fallen angels, they are the bringer of light
Now worship the supreme creatures from the other
side

Enter the gate to the ancient world
Lead by the occult science of the past and the
mysterious Volk

Antediluvian World
Antediluvian World

They were the wise kings from the island of the late
Before the big flood came they ruled the golden age

In the centre of the earth a fire in the sky
The almighty nation is going down to die

Enter the gate to the ancient world
Lead by the occult science of the past and the
mysterious Volk

Antediluvian World
Antediluvian World

Cataclysm - a new birth for the human race
Eclipse of time - we were born into a new age

Antediluvian World
