(RÃfÃ¶derer, Scharf / Krull)

I'm walking into opaque nothingless
No one can save my return
Prediction made another disconsolated creation
Which is acting against it's "Free will"
Will- my only will is still alive
Pride- let me resist and survive
Hate- gives enormous strenght
Defiance
Pain- I feel so tired
Love- my love is dying
But- my dignity is unviolable
Defiance

Path- of uncertainty
Is- nutritive
For- a further existence
Unfathomable, ruthless world
I'm lost, I'm born into
Once the time will come
To accept the battle
"Since mankind's existence
There's an endless war
Between human beings"
Every night the same returning vision
My only foothold on the brink
The piteous fall of the "antagonist"
And finally I will win
Will- my only will is still alive
Pride- let me resist and survive
Hate- gives enormous strenght
Defiance
Eyes- like flames of fire
Fear- non of those things
Which- thou shall suffer
Defiance
Once again it's time for another grave
Another execution is done
Are violence and senseless actions
The human fate ?
Perfect bodies- imperfect brains
