All that night this feeling, that pleasure  
Stealing my soul, all I found was lust  
Deification, a bizarre romance of caressing  
Deleterious love you are

Denaturing into a world of frustration  
Living on the age of damnation  
Laying in the circle within the bats  
And fading meanwhile on and on, and on

This headiness caused by deadness  
Raping my mind and having no magic  
Dehumanized a fogged world of lying dreams  
Blandishment, oh

I know my destiny, I pay the price  
The voice comes from my mouth  
Cut off the soul, moving to another place  
Earning the wages, you are

Denaturing into a world of frustration  
Living on the edge of damnation  
Laying in the circle within the bats  
And fading meanwhile on and on, and on

Goddess in black, you're feeling her might  
Between your legs, awaiting temptation  
All reason, your mind is running free  
In the night of damnation

Enchanted, blinded can't you see  
The witchcraft of a beauty beast  
Creeping, crawling in the head  
Chanting, arises from the death?

Snake hissing on your neck  
Sneaking fiend from the back  
Fiery love scene at its height  
Black temptation in a murky night

Goddess in black, beyond all reason  
Goddess in black, weird obsession

Lucifugous and bad cheiroptera  
Goddess in black

Coming under her influence  
Strange maiden dressed in black  
Grotesque flames of fire  
Kept my sooth fast soul

Howsoever this night will be ended  
I have to ask the question  
Where are the guardian angels  
Followed all my life?

All that night this feeling, that pleasure  
Craving for more squirming lustfully  
Degeneration abstract abyss fantasies  
Deleterious love you are

Denaturing into a world of frustration  
Living on the edge of damnation  
Laying in the circle within the bats  
And fading meanwhile on and on, and on

Enchanted, blinded can't you see  
The witchcraft of a beauty beast  
Creeping, crawling in the head  
Chanting, arises from the death?

Snake hissing on your neck  
Sneaking fiend from the back  
Fiery love scene at its height  
Black temptation in a murky night

Goddess in black, you're feeling her might  
Between your legs, awaiting temptation  
All reason, your mind is running free  
In the night of damnation

Goddess in black, beyond all reason  
Goddess in black, weird obsession  
Accord with the devil's pact  
Delivered to the, goddess in black
