

Atrocity "Superior Race"

Visit "[Superior Race](#)" on MotoLyrics.com

They come across the sea from the island of eternity
Dark ships with banners high, the whole world in their
sight
They are the Godly race, suppressing every place
Occult powers reign of fear invincible technology

The bloody way on their quest
Day by day they never rest, triumph is eternal
Hail, superior race
Obey superior race now

Man calls them Titans and Nefilim, they take over reign
supreme
Until they don't defeat every land, this war will never
end
Warlords of golden times, strong men side by side
Spilling blood on the shields, they control the
battlefields

The bloody way on their quest
Day by day they never rest, victory essential
Hail, superior race
Obey superior race now

Godlike dominance over other tribes
Inhuman malice in their mystic eyes
In a world of chaos human race is lost
Assumption of power, empires fall to dust
Fall to dust

The bloody way on their quest
Day by day they never rest, triumph is eternal
Hail, superior race
Obey, superior race

The bloody way on their quest
Day by day they never rest, victory essential
Hail, superior race
Obey superior race now
