[Originally performed by Camouflage]

Some people suppress you  
They patch you  
And reap a disaster  
Reeducation for the enfants  
Who demanded for an innocent instance

The great commandment  
Shows the contempt  
Between the world and their  
Embarassing pavement  
Believe the scholars  
Read the readings  
Realize the man who says anything  
The great commandment

The needies believe you  
They treat you  
Like survivors of a disaster  
Reeducation for the enfants  
Who demanded for an innocent instance  
The great commandment...
