A Womens Worth (remix)
Alicia Keys

You can buy me diamonds and buy me pearls
Take me on a cruise around the world
A dozen roses cause Im your girl
And you know Im worth it (uh huh) worth it
Dinner lit by candles under sun
Run my bubble bath cause Im the one
You want to love so tenderly
And you know Im worth it (say what) Im worth it

Wanna to please wanna to keep wanna to treat your
woman right (right)
Not just doe but a show let you know she is worth your
time (time)
You will lose if you choose to refuse to put her first
(first)
She will find a man who knows a worth

So all my real woman, throw your hands up
All my real men, wave your hands
If you feel me, then clap your hands
If youre worth it, worth it
So all my real woman, throw your hands up
All my real men, wave your hands
All my peoples, who understand
Represent your woman your woman your woman
your woman your womans worth

If you treat me fairly Ill give you my goods
Show you all the things no one else would
Treat you like a real woman should
Cause I know youre worth it (say what) your worth it
If you never play me, now dont you bluff
I promise you can get it all
Ill hold you now when s*** gets rough
Cause I know your worth it (say what) your worth it

She walks the mile makes you smile all the while being
true (true)

Dont take for granted the passion she has for you (you)
If you choose to refuse you will lose, put her first (first)
She will find a man who knows a worth

So all my real woman, throw your hands up
All my real men, wave your hands
If you feel me, then clap your hands
If youre worth it (if your worth it now) worth it
So all my real woman, throw your hands up
All my real men, wave your hands
All my peoples, who understand (represent them now)
Represent your woman your woman your woman
your woman your womans worth

(Dadadas)

No need to read it to whats spelled out for you
If its only a ? what we want from you (want from you)
Boy you cant go wrong when you value (you better
value)
Your woman woman woman womans worth

All my real woman, throw your hands up (said throw
your hands up)
All my real men, wave your hands (you know you know
it)
If you feel me, then clap your hands
If youre worth it (are you worth it) worth it (I know your
worth it)
So all my real woman, throw your hands up (all my
ladies ladies ladies)
All my real men, wave your hands (said wave your
hands)
All my peoples, who understand (do you understand
bout your woman)
Represent your woman your woman your woman
your woman your womans worth (bout your woman)
