Features

DateThe day of the month, displayed in a window on a watch dial typically at the 3 o'clock or 6 o'clock position.

Chronometer Label given to a watch which has undergone precision tests and received a certificate from an official body (COSC).

Screw-in crown Self-locking crown, screwed into the tube of the case, used for highly water resistant divers' watches.

Unidirectional rotating bezel A bezel which turns in only one direction.

Particularly useful for divers who cannot accidentally rotate it in the wrong direction, which could cause them to miscalculate their dive times. A

rotating bezel makes it easy to measure elapsed time.

Helium escape valve Decompression system which allows helium to escape from inside the watch when the watch is worn for professional use in pressure chambers. (Long-term underwater work, crude oil exploration, etc.)

technical data

CrystalDomed anti-reflective, scratch-resistant sapphire crystal

CaseSteel

DialBlack

Water resistance600 m (2000 feet)

SizeGentsCase Diameter: 42 mm

movement

Caliber: Omega 2500

Self-winding chronometer, Co-Axial Escapement movement with rhodium-plated finish

Power reserve: 48 hours
