Chorus:

love is like the sea  
leaves you on your knees  
feel it pull you in  
then it takes you, takes you  
over, over  
love is like the sea  
Leaves you on your knees  
first you're floating high  
then takes you takes you  
under under

well it's cold  
cold under water  
in the night time  
but i dove  
dove to the bottom  
to see what i'd find

that's when i saw a light  
a glowing paradise  
thought i'd stay a while  
it's been calling me underwater, child  
everything that i ever dreamed

taking my breath away  
currents got hold of me  
sweeping me away  
wish that i could stay  
takes me to the top  
it's the cycle that never stops

love is like the sea  
leaves you on your knees  
feel it pull you in  
then it takes you, takes you  
over, over  
love is like the sea  
leaves you on your knees  
first you're floating high  
then takes you takes you

under under

(takes you takes you over)  
(takes you takes you under)  
(takes you takes you over)  
over!  
(takes you takes you under)

say:

i've been told  
told you only find it once in a lifetime  
so you better hold  
hold on stronger then ever  
like it's the last time

So when you see the light  
like a ship in the night  
you have found the place

you been looking for  
like a distant shore  
don't you ever look back again

here's something you should know (know)  
the sea is still in control (spoken: that's right)  
cherish everyday  
cause you never know  
it can take away  
the very thing that you love the most(love the most)

love is like the sea  
leaves you on your knees  
feel it pull you in  
then it takes you, takes you (takes you, takes you over)  
over, over  
love is like the sea  
leaves you on your knees (leaves you on your knees)  
first you're floating high  
then takes you takes you (takes you, takes you under)  
under under

(takes you takes you over) oh  
(takes you takes you under)  
(takes you takes you over)so far  
(takes you takes you under)Listen, love is like the sea  
yeah

(takes you takes you over)  
(takes you takes you under)can you feel the pull?  
(takes you takes you over)it's calling you

(takes you takes you under)

love is like the sea  
leaves you on your knees  
feel it pull you in  
(if you ever felt this way before)  
then it takes you, takes you  
over, (then you know)  
over  
love is like the sea  
leaves you on your knees  
first you're floating high  
(oh get down on your knees)  
then it takes you takes you  
under under  
(take me away)
