Yes you are the one that broke my heart  
But I don't want nobody else babe  
I don't want nobody else baby but you

Yes you are the one who left these scars  
But I don't want nobody else babe,  
I don't want nobody else baby, but you

People say that I'm crazy bout you  
They tell me I'll pay later  
But I can't live without you  
Mike told em it's human nature

Don't mind what they say about you

Baby don't sweat them haters  
Broke my heart but you healed it too  
To my every need you cater

Yes you are the one that broke my heart  
But I don't want nobody else babe  
I don't want nobody else baby but you

Yes you are the one who left these scars  
But I don't want nobody else babe,  
I don't want nobody else baby, but you
